

# ONE BRAND- ONE QUALITY- One Size Package

All our skill, facilities, and lifelong knowledge of the finest tobaccos are concentrated on this one cigarette—CAMEL.

Into this ONE BRAND, we put the utmost quality. Nothing is too good for Camels. They are as good as it's possible to make a cigarette.

Camel QUALITY is always maintained at the same high, exclusive standard. You can always depend on the same mellow-mild refreshing smoothness—the taste and rich flavor of choicest tobaccos—and entire freedom from cigaretty aftertaste.

And remember this! Camels come in one size package only—20 cigarettes—just the right size to make the greatest saving in production and packing. This saving goes straight into Camel Quality. That's one reason why you can get Camel Quality at so moderate a price.

Here's another. We put no useless frills on the Camel package. No "extra wrappers!" Nothing just for show!

Such things do not improve the smoke any more than premiums or coupons. And their added cost must go onto the price or come out of the quality.

One thing, and only one, is responsible for Camels great and growing popularity—that is CAMEL QUALITY.

# Camel

## San Antonio Flood

The following letter was written to Mrs. T. R. Wingo, of Trzevant, by her grandson, Jack Wingo, aged 13, from San Antonio, Tex., after the recent big flood:

Dear Grandmother:—  
I hope you are feeling well today. Has it rained very hard up there lately? We had the largest flood in the history of San Antonio. There was a cloudburst in Olmos Valley and the water just came all at once. It carried everything but me. I guess I had better start by telling you about the way we first heard of the water.

I went to bed about 10 o'clock and slept for about two hours, when I woke up I heard daddy phoning the fire department. I didn't know what was the matter as the streets were high and dry

when I went to sleep. He couldn't get the fire department as all the wires were down. I got up and he told me to go to the window and look out. When I got there I got the surprise of my life. The whole street was flooded with water. I got dressed and went down stairs with daddy. There were several more people there watching it too. You could see it come in so fast. It sure rose fast, too. It rose to at least eight or ten feet right in the middle of the street. It only rose to the top of our porch. I got in through some air holes and soaked up through the floor into one of the lower apartments. Right across the street it flooded one house and went nearly to the ceiling of a grocery, so you can imagine how deep it was.

We live near the Alamo Ice Plant and they keep their horses in the plant. When the water got up around the horses they started

neighing. Some men let them out and they swam up the street to dry land. It sure was pretty to watch them. We didn't know that the water came up any place else, but it sure did, though we didn't know it till morning.

The town was put under martial law about 2 o'clock in the morning. We had some cavalry up by our house. Soldiers were guarding everything. When we got down town we saw a sight that looked as bad as the storm we went through in Galveston could make it. Nearly every store on Houston St. was ruined. One curio store alone lost about \$150,000, and others lost a great deal more. The store I work at though, was not touched as it was on high ground and also a different street. The dry goods stores that used basement, as store-rooms, lost a terrible lot, too. I haven't been clear down Houston, but they say it is worse, and I guess it is so, too, as the farther down you go the lower you get. I went down as far as the Gunter hotel, and right there the water was about fifteen feet deep in the lobby. Nearly all the bridges were washed out.

It covered a lot of the residential district. In some places the houses were smashed like kindling wood. The electric light went out of commission, and there was no water for use. The telephone exchange was flooded, so we were cut off from town. There was a great electric display. A great many people were drowned. The water was so fast that it washed buildings down town. They will never know exactly how many were killed. All the streets were roped off and you had to have a pass to get nearly everywhere. Daddy got one for himself and one for me. The water even went so fast as to tear up the wooden blocks that the streets were paved with and threw them everywhere. An auto was only as a chip of wood in the swirling waters. The loss of life here was mainly in the Mexican district.

Daddy says he will write to you soon, but that he couldn't today as he had so much else to do. Must close now as daddy and I are going down town and look around at the wreckage. With much love to all and a lot for yourself. Your loving grandson, JACK.

Product of Coconut Tree.  
A 5-year-old coconut tree begins to yield 60 nuts a year. It is estimated that 1,000 nuts will make 25 gallons of coconut oil, which is used for soap making and candle making. The husks are useful also; they may be turned into cordage, brushes or matting.

SQUINT eyes detract from your appearance and efficiency. If you have EYE-STRAIN, come to us and let us fit you with glasses you need. You can not afford to let your eyes "go." Our expert will be glad to examine your eyes FREE OF CHARGE. When you need glasses we will sell them to you for a REASONABLE PRICE. When looking for glasses, also look at our beautiful JEWELRY and silverware.

OUR WORD IS OUR BOND

Huntingdon Jewelry Co.

## Massey-Harper

The M. E. Church, South, in Huntingdon, was the scene of a beautiful wedding Thursday night of last week at 9 o'clock, when Miss Hazel Harper became the bride of Dr. Virgil E. Massey. The church was artistically decorated with potted ferns and begonias, flower baskets and festoons of southern vines. The marriage was performed by Rev. Butts, of Lexington, presiding elder of this district, using the ring ceremony.

The bride was beautiful as she appeared on the arm of her father, Rev. T. K. Harper, pastor of the M. E. Church, South. She was gowned in white georgette with veil of maline with silver lace trimmings and carried a shower bouquet of bride roses and valley lilies. Mrs. M. F. Priest, matron of honor, wore green georgette over satin, and Miss Marjorie Noell, maid of honor, electric blue maline over satin, and the bridesmaids, Misses Opal Jolly, Bertha Edwards and Frances Freeman, appeared in pink, each with bouquet of pink roses. The groom with his brother, Mr. Hobart Massey, as best man, his groomsmen, Dr. R. A. Douglass, Mr. Poe Maddox and Mr. James McCall, and the ushers, Mr. J. T. Hester and Mr. James Patrick, wore full dress suits. Little Miss Eugenia Freeman was flower girl.

Misses Nanie Payne and Christine Priest presided at the organ and piano for the musical program. Mr. Frank T. Tobey sang "Because" and Mr. M. F. Priest "Dawning."

The out-of-town guests were Mr. and Mrs. H. L. Moore, of Birmingham, Ala., and Mr. and Mrs. Oscar Key and family of Buena Vista.

Following the ceremony the bridal party went to the home of Miss Christine Priest for a reception. Delicious refreshments were served. After the reception the bridal couple left for the mountains of East Tennessee and Asheville, N. C. They will be at home to their friends on East Paris street after the first of October.

The groom is a successful young physician. He was born and reared in this county and at the close of the war, after giving his service to his country, located in Huntingdon where he has rapidly built up a fine practice. The bride is a talented young lady with lovable disposition. They are prominent and popular young people of Huntingdon. Handsome and useful wedding presents were showered upon them by their many friends. The Democrat extends congratulations and every good wish.

## "Clean-Up Squad"

Has your claim been adjusted by the government?

Are you entitled to vocational training?

Do you need hospital treatment? The government "clean-up squad" will be in Huntingdon on October 10, 11 and 12.

If you have all evidence necessary they will pass on your case immediately.

Write to J. M. Nixon, contract representative B.W.R.I. in Tennessee, in care of Guy May, director ex-Service Men's Bureau, 310 Holston National Bank building, Knoxville, Tenn., who will send you transportation to Huntingdon.

The ex-Service Men's Bureau is co-operating with the government agencies with a view of cleaning up all cases in Tennessee.

Catarhal Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the mucous surfaces. ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists Use. Circulars free. P. J. Cheney & Co., Toledo, Ohio.

## Portraiture on Jewels

Probably the best bit of portraiture done on any jewel is that of the head of Mithridates, the ancient king of Pontus. This deep violet image was discovered many years ago in India. The largest sculptured or carved work with an amethyst as the medium consists of the bust of Trajan, the Roman emperor. This adornment, formerly in the possession of the Prussian court, mysteriously disappeared when Napoleon occupied the city of Berlin. Historians allege that some of his generals had taken away. The work of art has been lost to the world since the time of this invasion by "the little corporal."

## The Real Thing

Jack was stout and his face was round and rosy. He was sitting on the steps in front of his home when a group of boys passed, and they immediately began to tease him about having the mumps. He took it for a while and then replied: "Mumps nothin', them's just cheeks."

## Etching for Reproduction

Etching, as a branch of art apart from its fascinating accidents and means of expression, is also a process of reproduction which interests many of the present-day dealers, artists, and students, cannot be denied.—E. A. Taylor.

## A Warm Room To Dress In

- No more cold trips to the basement.
- No more dressing in a cold room.
- No more fires to build.
- No more big fuel bills.

# COLE'S

ORIGINAL  
HOT BLAST HEATER

is absolutely air-tight and will stay air-tight. That is why it is guaranteed to hold fire for 36 hours without attention.

And remember, every Cole's Hot Blast Heater is guaranteed to consume one-third less fuel than any underdraft stove of the same size. This means money in your pocket.

Let us tell you more about this remarkable heater.
